6. Any other comments?

Very clear and detailed explanation of the resource. I think this would be really helpful to the targeted user group.

Exercises well designed. Good idea to have to put answers on the back of the evaluation.

Very clear presentation. All Learning Objectives met.

Very good presentation and entirely appropriate for the intended audience. Well done!

Very comprehensive and clear.
Engaging and clear. Very relevant and Learning Objectives achieved fully.
Exercises good to support the Learning Objectives.

Good resource to include in training programme.

More time for the exercises and questions.

A very useful presentation, demonstrating advantages of Intute as an evaluated/high quality resource in comparison with a search engine such as Google.

Really good promotion of a good resource i.e. by highlighting positive aspects and comparing to Google. Well thought out demonstration and clear exercise.

Please hand this form to Abby at the end of the session.
